**SKILL CLUB**

Dear Parent,

*"The capacity to learn is a gift; the ability to learn is a skill; the willingness to learn is a choice." - Brian Herbert*

In accordance with National Education Policy, Skill Education has been integrated in classes VI to VIII through Skill Club activities at TIS, since session 2023-24. The activities are designed to encourage students to think, evaluate and apply what they have learned, thus gaining real-life skills.

With the aim to ensure that every student learns at least one vocation and is exposed to several more, we encourage them to choose an activity different from what they had opted for in the previous session. They can opt for only **ONE SKILL CLUB** activity for the session 2024-25. The allotment of the activities will be done on the basis of her/his choice and availability of seats. In case any activity is oversubscribed, then the allotment will be done through draw of lots and then options considered. The details are given below:
