Dear Parent

Astronomy is not only a fascinating subject but also a powerful tool to foster curiosity and creativity. The subject motivates students to ask questions and seek answers through scientific inquiry. Collaborative projects and discussions on celestial phenomena enhance communication and teamwork skills. We are organising astronomy related hands-on workshops for the students of classes I to V. These workshops will be in collaboration with SPACE organization.

There will be six workshops of 90 minutes each (four in physical mode and two in online mode). All the physical sessions will be held in the school. Expose your ward/s to the fascinating world of astronomy through the workshop! Please note the schedule for the same:
